

Auenlehrpfad

HIKING TOUR

Fun circular hiking trail with lots of information about the local flora and fauna. 00:35 h. Tittmoning.

From the parking lot in Wasservorstadt follow the signs, which lead to the **wooden bridge over the Siechenbach** and point to the left before the dam.

Now you go into the **floodplain forest**, where the **start of the nature trail** and therefore the **first stop** is.

The well-signposted path provides interesting information about the animals and plants that live in this landscape.
