375 ascending

Location
incell

 **duration:**
02:30 hours

 **minimum altitude:**
789 meters

 **altitude difference:**
375 descending

Forsthaus Adlgass - Bäckeralm

The hike begins at the **hiking car park** at the Forsthaus Adlgäß. From now on you can simply follow the **signs "Bäckeralmrunde"** (path no. 26). The signposts take you **back about 300 meters along the road** until two small buildings appear on the right. Here **you turn right** and follow the path to a **wood storage area**.

Shortly thereafter, the path becomes **more idyllic and natural**, which leads slightly uphill to a **forest hut**. Below is a large alpine meadow on which the Bäckeralm can already be seen.

After a restful break, you continue to follow the **narrow path to a forest road**. Here you go **slightly downhill** until you reach a **viewpoint**. From here you can take in the whole **Inzell valley**!

If you continue to follow the forest road in the direction of Adlgäß, which leads over the Pommernberg, you will be back at the hiking car park after about an hour.
