From the **Forsthaus Adlgaß** it goes directly into the **mountain forest adventure trail** . Simply follow the "**fire salamander**" **symbol** . The path leads over **beautiful wooden floors past the eleven interactive adventure stations** . Hear the sounds of nature, experience **how quickly wood transmits sound waves** or **long jump with forest animals** - great fun for children. A special highlight is the **floor course** , which invites you to walk barefoot. This allows you to perceive the pebbles, moss and mulch much more precisely.

But not only the stations, but also the path itself, which leads up to the Frillensee , is a real experience.
