56.0 kilometres

 *maximum altitude:*
633 meters

 *altitude difference:*
521 ascending

Location

Traunstein

 *duration:*
04:00 hours

 *minimum altitude:*
444 meters

 *altitude difference:*
521 descending

Hofbräuhaus Traunstein - private brewery Schnitzlbaumer - Wochinger Bräu - Aiging - Neuhausen - Kammer - Otting - Waging am See - Waginger See - Petting - private country brewery Schönram - Teisendorf - Obermoos - Lauter - Traunstein

The circular route can be easily started in **Traunstein**. Here you have the opportunity to visit three breweries at the same time. The Hofbräuhaus Traunstein, located in the old town for 400 years, the private brewery Schnitzlbaumer, the oldest brewery in Traunstein, and the Wochinger Bräu, known for its handcrafted beers. Or you can pedal first and enjoy the **beer town of Traunstein** after the bike tour.

The designated cycle route takes you along the Traun in a northerly direction via Aiging to Neuhausen. It continues via Kammer to Otting. You now follow the bike signs on the shortest route to the quiet **Waginger See**. From here you continue cycling in a southeasterly direction to Petting. Follow the cycle path to Schönram to the private country brewery Schönram, which brews according to the motto "Quality knows no compromises". The Bräustüberl, which belongs to the brewery, is right next door and invites you to take a welcome break.

After a little refreshment, it's the same way back a bit. After almost a kilometer, turn left and cycle to **Teisendorf**, where the private brewery MC Wienering is located. In addition to classic beers, swing top bottle specialties and special beers are also brewed here. In the brewery inn in the middle of Teisendorf you will experience down-to-earth **Bavarian hospitality**. The bike tour logos will then lead you to Lauter via Obermoos. In Lauter you cross the railway line and cycle back to the **starting point in Traunstein**.

Tip : The **Maria Mühlberg pilgrimage church** towers above Waging on the Mühlberg . The fantastic view of the **Waginger See** and the surrounding landscape up to the Chiemgau Alps makes up for the effort of the ascent. Take a little detour from your bike tour and enjoy the view!
