Tip : This hike can also be reached by bus. Which line, which stop, which way to go? This is after the description. All public transport tips have been tested by our team.

It starts at the Max Aicher Arena ice rink with its striking architecture, slightly uphill towards **Zwingsee** . Then it's about two kilometers through the rustic and untouched nature to the second lake of the circuit, the Falkensee . Embedded in the Chiemgau Alps, the **Falkensee** is the perfect place to take a little break and enjoy the surrounding silence.

After the **Falkenseebach** it goes to the Kneipp facilities. From here back to the starting point or turn left towards **Krottensee** . From the Kneipp facilities, the path leads through the districts of Hausmann and Bichl. Shortly before the district of Bichl, a field path branches off to the left and leads back to the ice rink.
