Route: starting point Schmelz. Crossing the hiking car park we pass the adventure playground and hike through the Wildenmoos around the Kienbergl. In Zwing we pass under the B305, turn right and walk along the Salinenweg to Weißbach. Here we cross the entire village and follow the course of the stream and the signs to the Weißbachschlucht. At the Mauthäusl we cross the B305 and continue to Höllenbachalm. From there the path leads us to Lake Thumsee. Now we follow the signs to the Predigtstuhl valley station and then in the direction of the town center to the old saltworks. Special features: A long but very varied tour without major climbs. It is often wet and slippery in the gorge. Refreshments: Weißbach, Mauthäusl, Thumsee
