 **altitude difference:**
64 ascending

Location
incell

 **duration:**
00:20 hours

 **minimum altitude:**
803 meters

 **altitude difference:**
58 descending

The Forsthaus Adlgaß is located to the east of Inzell . From here it goes through the snowy mountain forest in the direction of Frillensee bach. After about 600 meters you will reach the starting point of the toboggan run below the Frillensee . The snowy landscape automatically makes you quiet. Listen to the gurgling of the lake in the distance.

With the winter tranquility in your luggage, once you have arrived at the top, you get on the sled and head towards the forester's lodge at high speed along the route without many bends. Despite the speed, the descent is not dangerous and therefore great fun for young and old.

After the sleigh ride, you can warm up and strengthen yourself in the cozy dining room of the Forsthaus Adlgaß .
