**631** ascending

### Location

**underwear**

 *duration:*  
**04:45** hours

 *minimum altitude:*  
**667** meters

 *altitude difference:*  
**631** descending

**Hammergraben hikers' car park – Feldlahnalm – Burgaualm – Rechenbergalm – Burgaualm – Hammergraben hikers' car park**

From the **hiking car park in Oberwössen** you can follow the signs " **Feldlahnalm via Hammerergraben** " (path no. 75). Always along the Hammerer Bach, you have to cross a forest road after a short time and then follow a somewhat narrower path up to the **Feldlahnalm** . If you are already hungry or thirsty, you can take a **break** here.

We continue on a small path that leads below the alp to another forest road. After turning left, the path climbs a little, but later falls down again. You follow the path until just before the **Burgau-Almen** (path no. 77), from where you hike right over the alpine meadows back into the forest (path no. 7). After a short time, a steadily rising forest road starts again, which you turn right and follow to the **Rechenbergalm** .

The way back is the same as the ascent to the **Burgaualmen** . From there you go right and then along hiking trail no. 7 until you reach the **starting point** again.
