From **the Geigelstein car park** in Ettenhausen, follow a wide forest path in the direction of **Klobenstein** . The path leads past the **Rudersburger See** and then runs uphill at the former border. You follow the path to the **suspension bridge** that leads over the Entenlochklamm to Gasthof Klobenstein.

After a rest and a visit to the local **pilgrimage church** , the path continues up to the main road. Follow this for about 200 meters to the right until **a trail branches off to the left to Samerrast** . Here you have a **very nice view** of the Geigelstein , which you can enjoy until you continue to the Bäckeralm, to the Streichen mountain inn and to the Streichenkirche St. Servatius . It then goes back via the **Haideralm to Wagrain** until you arrive back at the parking lot.
