Church Meggenthal - Guggenberg - Heigermoos - Meggenthal

From the **parking lot of the church in Meggenthal**, near Tittmoning, head south to **Guggenberg**. You can learn everything about the forest and its diverse functions from **information boards** along the way. These also invite you to become active yourself and to experience and enjoy nature with all your senses.

There are also **question-answer puzzle flaps** where you and your children can learn about different types of trees, for example. The signposted path continues briefly in the direction of **Heigermoos**, through the **Heigermooser Forest** and then leads back to **Meggenthal**.
