47 descending

On the newly created **educational forest trail** around the "Bauschberg" in Seeon, your knowledge of the forest and its inhabitants is required. The starting point is the **school in Seeon** . **20 stations** with questions and information await you on the consistently signposted path over 1.5 km, at the end you will find the solutions and can choose the forest expert. A special highlight is the **forest telephone** , where you can receive messages through the tree trunk. The educational forest trail is an ideal **hike for children** aged 4 and over.
